

SAIKRISHNA JELLA

Business Analyst | MSc International Business Management

London, UK | 07823 694370 | saikrishnajella09@gmail.com | linkedin.com/in/saikrishnajella09

PROFESSIONAL SUMMARY

Analytical MSc International Business Management student with practical experience supporting business decisions through data analysis, structured reporting, and market research. Proven ability to gather requirements, document processes, benchmark competitors, and translate complex datasets into clear recommendations for senior stakeholders. Skilled in Excel analytics, PowerPoint reporting, foundational SQL, and GenAI tools, with strong attention to detail and experience working across cross-functional teams in fast-paced, compliance-driven environments. Motivated to deliver high-quality analytical outputs that improve operational performance and support strategic growth.

CORE SKILLS

Business Analysis: Requirements gathering, process documentation, stakeholder engagement, business case support, user journey mapping

Data Analysis & Reporting: Excel (Pivot Tables, VLOOKUP, XLOOKUP, charts), KPI tracking, performance reporting, data cleaning and validation

Querying & Databases: SQL (foundational) – writing basic queries, filtering, and joining tables to extract data for reporting

Research & Insight: Market research, competitor benchmarking, due diligence, pattern and trend analysis, evidence-based recommendations

Communication & Stakeholder Management: Translating complex information for non-technical audiences, structured reporting, cross-team coordination

Tools: Microsoft Excel, PowerPoint, Word, Power BI (foundational), SQL (foundational), Google Workspace, ChatGPT and GenAI tools

Professional Strengths: Attention to detail, analytical thinking, problem solving, time management, multi-tasking under deadlines

PROFESSIONAL EXPERIENCE

Business Development Associate

Jan 2024 – Jul 2025

Intellogi Technologies Pvt Ltd, India

- Gathered business requirements and analysed client and market data across 10+ accounts to support strategic decisions and improve commercial outcomes.
- Produced structured business documentation, reports, and presentations for internal teams and external clients, ensuring accuracy and professional formatting.
- Conducted competitor benchmarking, due diligence, and market research, synthesising findings into actionable business intelligence and strategic recommendations.
- Built and maintained lead generation datasets and performance trackers, contributing to a 15% uplift in qualified prospects through improved data visibility.

- Translated complex datasets into clear, structured outputs for senior stakeholders, supporting data-driven decision-making.
- Coordinated end-to-end deal support with internal teams and clients, ensuring consistent communication and timely delivery of project milestones.
- Documented workflows and reporting processes, strengthening record management, data accuracy, and operational consistency.

Crew Member – Operational Support

Oct 2025 – Present

McDonald's, Enfield, UK

- Operate within a high-volume environment serving 200+ customers daily, maintaining strict adherence to SOPs, quality standards, and compliance procedures.
- Support the team in meeting service and compliance targets, demonstrating organisational skills, reliability, and the ability to multi-task under pressure.
- Collaborate within a team of 15+, contributing to workflow consistency, attention to detail, and a positive customer experience.

PROJECTS

Alpha District – Business Plan & Market Analysis (MSc Coursework)

- Developed a complete business plan and pitch deck for a Gen Z gymwear startup, including market analysis, competitor audit, financial modelling, and digital marketing strategy.
- Applied AI tools and prompt engineering to automate research workflows and produce data-driven strategic recommendations.

Fin-Copilot – Financial Data Analysis Concept (Personal Project)

- Designed a concept tool to generate insights from financial spreadsheets using Excel and AI, focused on visualisation and decision support.
- Simplified complex datasets into clear, actionable insights for end users.
